but PLEASE don't put turkey grease or large amounts of food scraps in the garbage disposal.

Collect grease, bones and other food waste in a disposable container; **chill or freeze to solidify grease. Then wrap or tie securely in plastic and dispose of the wrapped container in the green garbage bins. A sewer back up caused by an overloaded garbage disposal will cost \$\$\$\$.** Your neighbors below and beside you plus the Common Elements will also suffer expensive damage from a sewer back up. You could be liable for not only your own homeowner insurance deductible but also the hefty deductible for the Common Elements insurance if the problem originates your Unit. A sewer back up will ruin your day.
