

## Plumbing Problem?

The BOD conducted some research on plumbers in our local area to assist residents to find reliable, reasonable plumbing service. We called 13 plumbers in our area to ask their typical charge for residential kitchen or bathroom clogged drain service calls. Charges ranged from \$250 to \$950 (in 2022) for basically the same service. Below you will find two local plumbers who quoted a reasonable rate for a hypothetical service call. These are not guaranteed rates. Be sure to describe your plumbing problem when you call and always ask for an estimate to diagnose and repair your specific problem.
